E. F. ANDREWS, Director. AT A SPECIAL MEETING OF THE BOARD OF trustees of the Riggs Fire Insurance Company held September 27, 1901, the following resolu-tions were adopted:

Whereas the trustees of the Riggs Fire Insur-ance Company, assembled in special meeting, are called upon to mourn the sudden demise of their president, Mr. WILLIAM S. THOMPSON, which, under the Interposition of Divine Providence, oc-curred on the morning of the 26th of September, 1901; and

Whereas we are desirous of making some public attestation of our sorrow and regard for one who has been for almost his entire life a resident of this community and, since its organization, an officer of the Riggs Fire Insurance Company: resident of this community and, since its organization, an officer of the Riggs Fire Insurance Company:

Be it Therefore Resolved, That in the death of W. S. Thompson, president of this company, the corporation has parted with an adviser whose wise counsel and faithful consideration for the best interests of the company have aided immeasurably in the administration and success of its affairs, and that we, as trustees and individuals, know of no citizen to whose personality and career we could with greater satisfaction point the youth of our city as an example of industry, intelligence, probity and honor than our friend and president who has so suddenly been called to his reward. Unassuming, benevolent, conscientious and just, we commend his eternal future to the grace of Him who doeth all things well, and convey to his family and sorrowing friends and the business public all that we are capable of—hearts full of sorrow and sympathy—and direct that our action be spread on the minutes, a copy furnished our late president's family, and that the same be published in the papers of this city; and, further, that on the day of the funeral obsequies the office of this company be closed, and that we attend the same in a body.

Since Mr. Roosevelt has become President the tervals. scheme has taken a wider range, and a cavalry arm of the District guard is pro-

At National Guard headquarters there seems to be an inclination to doubt the feasibility of such an organization. It is very expensive to maintain, it is said, as horses will have to be hired every time the troop goes out, and the general organization and equipment is more expensive than that of infantry. Several cavalry troops have been organized in connection with the District guard in the past, but each one has been disbanded after a short life be-

Promoters of the Project. The promoters of this latest movement, however, do not seem to be dismayed by the failures of the past. Their leader is Mr. John Doyle Carmody, the notary public, whose office is in Fulton's pawnbroker's establishment, on 9th street near Pennsylvania avenue. It is understood that Mr. Carmody considered a project of forming a mounted infantry company here shortly after President Roosevelt was elected Vice President, as stated, and that he corresponded with the latter on the subject and received a favorable reply. The new proposition, however, has not yet been called to the President's attention

the President's attention. It was said today in quarters where the scheme is being discussed that it was at first the intention to organize a company of forty riders, of which about half had, been already secured. Among these, it was said, are Mr. Carmody, Mr. Arthur C. 1 Moses, Mr. Ed. Droop, Captain LeRoy Her-13 ron of the D. C. N. G., H. D. Claffin and others engaged in business pursuits.

It is understood that the membership line will be strictly drawn, although at just what point the social status of the

applicant will constitute him an eligible is somewhat hazy. The plan contemplates the holding of a meeting the latter part of next week, when regulations governing membership will be formulated and officers elected. Some of those interested have stated that the ques-tion of expense will not be regarded in equipping the company properly, and it is proposed to have all the horses matched as closely as possible in color, size and con-formation. It is also intended, if the first company is a success, to organize another and form a mounted battalion.

Peaches have been of particularly good quality this season, especially those from western Maryland. In a short time this year's stock will be exhausted.

Apples are also of fine quality, and dealers predict they will be high during the coming winter. Apples are selling at from \$2 to \$3 a barrel, according to quality, but the farmers are not yet bringing in their winter stock. Grapes are unusually plentiful and cor-respondingly cheap. During the past few days many thousands of baskets have been

received here through the Baltimore market, and the stock will probably be ample until after Christmas. Pears have been unusually plentiful and cheap, good stock selling as low as 50 cents a bushel at times. Mr. Macfarland assured the delegation of ready on record as in favor of the memotablishments to ship their stock at fairly rial bridge, and that now, as it was pro-

the co-operation of the Commissioners, and of himself, personally. He said he was alposed to erect a memorial arch to President McKinley in connection with the national structure, he felt a double interest in the matter. Mr. Macfarland said that Congress should be asked to provide for the bridge, as the association suggests, but he believed that the arch should be constructed by popular subscription, so that it would be in every sense a national tribute of the people to the memory of the dead President. Mr. Macfarland suggested that the bridge association should confer with the Board of Trade, the Business Men's Association, and other local bodies.

Visit Was Preliminary.

The visit to the Commissioners this morning on the part of the bridge delegation was preliminary, it is stated, to the cailing of a mass meeting of the citizens of the District at an early date.
